Engineer's Report: Engineer Wise said it is time to submit for OPWC Funding. Engineer Wise said he has put together a few projects from the Capital Plan that might be accepted to receive funding. The Chippewa Road Sanitary Project is one of the items that would benefit from the OPWC Funding. Engineer Wise said the Chippewa Road project has already received \$1.5 million in funding from Regional Sewer.

The Miller Road Widening Project may also be a project that could apply for funding, although TRAC funding has already been submitted for that project. TRAC money would come through ODOT and may be two years before funding is approved.

Councilmember Broski asked what the cost of the sewer project is. Engineer Wise said approximately \$3.5 million. Committee members discussed and agreed that the Chippewa Road Sewer project may be the most beneficial application to submit.

If there is no response from the property owners, he will proceed with the appropriation. Law Director Matty said he needs to have an appraisal done on this property.
