

## **Dead Animal Removal**

**The Brecksville Service Department provides a limited animal carcass removal service. Due to the expense of dispatching crews for this type of activity, only large animal remains in the right-of-way that may cause a traffic hazard are picked up on a 24/7 basis. Large (deer-sized) animal carcasses will be removed from private property during our normal operating hours of 7:30 a.m. to 3:30 p.m. Monday - Friday. On private property in wooded areas decayed carcasses will be limed only by the Service Department.**

**The Service Department requests that residents handle the removal of small animal remains by placing them in plastic bags and disposing of them with household trash.**

**Property owners are responsible for all animal remains located on private property.**
