

## The latest news for you

City of Brecksville <information@brecksville.oh.us>

Thu 7/2/2020 3:21 PM

We hope that you and your family are safe and healthy considering the recent spikes with the covid-19 virus. It reminds us all that we should be cautious, and follow the basics which include washing your hands, wearing of a mask, and continue to distance. Please follow our web page as we continue to provide you update information regarding the virus.

The Brecksville-Broadview Heights City School District has announced the ground breaking ceremony for the new Elementary School and Blossom Field House on July 21, at 11:00 am. Please refer to the school webpage for further details. The public, of course, is invited. We thank Superintendent Magyar and her staff for making the arrangements for this ceremony. Officials from Brecksville, Broadview Heights, and the school will be on hand to help celebrate this ground breaking.

Due to the continued problems caused by the covid-19 virus, both man power and supplies have been difficult in obtaining for the pool projects at the Community Center. We doubt, very seriously, if we will open the outdoor pool this year. We do look forward to the opening and dedication of the expansion of the indoor natatorium which will most likely be scheduled some time in October or November. With the reopening of the Community Center, we are very pleased with the cooperation of those returning to use the facility. We hope that in the months to come, and as we get through this pandemic, all that the Community Center once offered will be restored. Please follow our web page, there is much to offer and many activities to participate in.

Thank you for patience during the Road Program and construction season. The concrete phase is nearing completion, and we have begun the milling and filling of asphalt streets for the year. Please continue to drive safely and cautiously in these areas.

Sherwin-Williams is moving forward with their Research and Development

Facility in our City. With the City's CIC acquiring the adjacent Dalad property, legislation is required to include that property into the agreement with the DiGeronimo Companies, Sherwin-Williams, and our TIF agreement with our school district. The legislation to authorize these new agreements will first appear on the agenda of City Council on July 7<sup>th</sup>. Site work continues on the property, and this project will become, without question, the recovery of our regional and state economy. We continue to express our appreciation to Sherwin-Williams for their partnership with our City.

On behalf of the Administration, City Council and staff, we wish you all a very safe and happy 4<sup>th</sup> of July weekend!

God Bless,

Jerry N. Hruby  
Mayor
